

Dive in to Aquaculture

at Muskoka Discovery Centre!

Dates:

Sept. 10 – Dec. 28

Take your class on an interactive journey through Canada's aquaculture – the farming of fish, shellfish, and seaweed! *Aquaculture: Farming the Waters* brings science and food production to life with games, hands-on activities, and engaging exhibits.

What Students Will Discover:

- How Canadian farmers raise fish, oysters, kelp, and more.
- The history of aquaculture, including Indigenous practices.
- Cutting-edge technology and sustainable practices in food production.
- Challenges and solutions in managing aquatic ecosystems.

Why Visit:

- Interactive, tactile, and suitable for all ages.
- Accessible audio tour for visually-impaired students.
- Sparks curiosity about science, innovation, and sustainability.

Bring your students to experience the future of food and learn how Canada is leading in aquaculture innovation!
